“ *Jim and I wish to offer our deepest condolences on the death of uncle Daniel. We did not get to visit a lot but when we did it was most enjoyable. We still have the plants Daniel gave us on one of our visits. They serve as reminders of his love of plants and his generosity in sharing them. We pray that time will heal the pain of losing him.*

*Due to these unique times we will not be able to be physically with you at this time but our prayers are with you all. Catarina & Jimmy Beresky*
